Humber Street Gallery

Humber Street Gallery is a contemporary art gallery, this means it shows works of arts made by artist from the last 50 years. We work with artists to make new work that explores the way we live today. We love welcoming families, children and young people to find out more about art, take part in activities or sit in our café and people watch on Humber Street.

Practice in Place

Practice in Place is the exhibition currently taking place in our project space on the ground floor. All the works of art in that space were created by artists we have been working with over the last year who live or work in Hull. You can be an artist too just like the artists in Practice in Place.

My Pockets

These activities have been created by My Pockets. My Pockets are based in Hull and East Yorkshire, they believe that happiness can be found by engaging with the world around us. They hope that people will use the activities to have fun, experiment and be imaginative.
