

# LEVEL 2:

## CURATE AN EXHIBITION

HUMBER  
STREET  
GALLERY

A Curator is someone who works in museums and galleries. Their job is to make exhibitions happen. Curators can work in the fields of Art, History, Science, Music and Literacy and they select the artworks and objects to put on display. At Humber Street Gallery, the Curator work with different artists to make new artworks which are shown to the visitors in the gallery.

Work with the family and plan your own show! To help we have a template you can cut out to make a miniature of our gallery space.

### FILL IT WITH:

- Found objects from around the house.
- Handmade artworks with any material you can find.
- Drawings and paint directly on the floor and walls.

### THINK ABOUT:

- What is the exhibition title?
- What do you feel seeing it all together?
- How would it look in real life?
